

BIG LEAD ASSEMBLY (BLA)

ABOUT

Shoals introduces the Big Lead Assembly, or BLA for short. The BLA is an aboveground aluminum trunk system that combines the functionality of cable assemblies, combiner boxes, and fusing all into one. This free air de-rated system eliminates the need for standard combiner boxes, messy multiple conductor string wires, cable trays, trenching, and field crimping. Factory manufactured and quality guaranteed.

FEATURES

- Up to (4) 10mm² or (8) 6mm² input leads per BLA mold drop
- Configurable for FSLR S4, FSLR S6, Crystalline, or Bi-Facial
- Plug and Play - eliminates field crimping and splicing
- Patented undermold/overmold process chemically bonds and hermetically seals joints
- Eliminates standard combiner boxes
- Utilizes free air ampacity tables
- Standard 5-year warranty on all models
- Compliant to AS standards

OPTIONS

- Customizable for up to 300mm² wire gauges
- Messenger cable for mechanical attachment
- Cable available in standard colors

TECHNICAL SPECS	STG.BLA
Voltage Rating	600 VDC / 1000 VDC / 1500 VDC
Max. I _{sc} (Trunk)	Up to 400A
Max. I _{sc} (Per String)	20.5A
Max. Trunk Cable Size	300mm ²
Number of Input Circuits	Customer Specific
Max. Ambient Temp. Rating	50°C

Plastic over-mold material is suitable for outdoor use with respect to exposure to UV light, Water Exposure and Immersion in accordance with UL 746C. Product design and specification subject to change or modification without notice.
